

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 24 February 1971

1. (Unclassified - LLM) David McAfee, of OMB, called and asked for the base month used by the CIA Retirement Act for triggering the next cost-of-living adjustment and I told him it was the same month used by Civil Service. McAfee said this was in connection with a policy paper on the implications should Federal staff retirement systems adopt the Consumer Price Index based on calendar year 1967 rather than the old 1957-59 period. He indicated that arguments seemed to favor the shift which, among other things, would mean increased annuities in June for some 1.8 million annuitants. The Director of Personnel was advised.
2. (Unclassified - GLC) Talked with the office of Representative Albert H. Quie (R., Minn.) and agreed that John Maury could speak to the Albert Lea, Minnesota, YMCA group at 2 p.m. on Tuesday, 6 April on the Hill.
3. (Internal Use Only - PLC) Handled a telephonic request from the office of Representative Paul McCloskey (R., Calif.) for a CIA briefing on Laos which was made directly to the Office of Current Intelligence and referred to Legislative Counsel. This was discussed with Messrs. Lafond and Martino on the staff of Representative McCloskey. See Memorandums for the Record. During the discussion, Mr. Martino requested a copy of the pamphlet on the origins of CIA. The request appears to be closed out for now.
